Warrant for Annual Meeting.

[L. S.] State of New Hampshire.

To the Inhabitants of the Town of New Boston, qualified to vote in town affairs :

You are hereby notified to meet at the Town House, in said town on the second Tuesday of March next, at nine o'clock in the forenoon, to act upon the following subjects :

Art. 1 To choose all necessary town officers and agents for the ensuing year.

Art. 2 To choose a delegate to the Constitutional Convention called to meet at Concord the first Wednesday of June 1912.

Art. 3 To raise and appropriate such sums of money as may be necessary for support of schools, maintenance of the poor, for repairing roads and bridges, for lighting streets for memorial day, and for all other necessary town charges.

Art. 4 To see if the town will vote to accept state aid for improvement of highways or pass any vote relating thereto.

Art. 5 To see if the town will authorize the selectmen to hire money to meet the necessary expenses of the town.

Art. 6 To see if the town will vote that "it is inexpedient to establish a library" as provided in section eight chapter one hundred and eighteen laws of 1895.

Art. 7 To see if the town will vote to buy oxen to use repairing the highways, and appropriate money for the same.

Art. 8 By request of George H. Wilson and others, to see if the town will vote to raise and appropriate a sum of money for the purpose of widening, by turnouts or otherwise, the highway (commonly called the North Road) from the junction near C. W. Tucker's mill, eastward to the Weare line, or pass any vote relating thereto.

Art. 9 By request of Walter C. Johonnett to see if the town will vote to appropriate the sum of One Thousand Dollars, to be expended on the highway leading from W. P. Averill's Hotel to the Depot bridge so called, or pass any vote relating thereto.

Art. 10 By request of Walter C. Johonnett to see if the town will vote to buy an Engine and Stone Crusher and raise and appropriate money for the same, or act in relation thereto.

Art. 11 By request of Solomon D. Atwood and others, to see if the town will assume the expenses of the select-

men in the suits brought against them individually and as a board, in the assessment of taxes of Eben L. Bartlett, or by any further litigation brought against them in the performance of their duties regarding said inventory.

Art. 12 To see what action the town will take in regard to the claim of Frank B. Blood.

Art. 13 To hear the report of the town house building committee, pass any vote relating thereto, raise and appropriate money, and choose any committee to carry said vote into effect.

Art. 14 To see if the town will vote to repair and remodel the town house, raise and appropriate money for the same, and pass any vote relating thereto.

Art. 15 To see if the town will vote to make a contract with Allen P. Wilson or any other party or parties for a term not exceeding five years for lighting streets, or pass any vote relating thereto.

Art. 16 By request of Walter C. Johonnett, to see if the town will vote to establish an electric light in front of his residence.

Art. 17 By request of B. F. Porter. To see if the town will vote to establish an electric light in front of said Porter's residence.

Art. 18 By request of B. F. Porter. To see if the town will vote to extend the sewer from its present outlet

near the residence of Mercie A. C. Dale to the brook below the residence of Charles F. Marden.

Art. 19 By request of Reed W. McLane. To see if the town will vote to purchase land, and build a shed to house town road machinery, raise and appropriate money for the same, or pass any vote relating thereto.

Art. 20 To hear the reports of agents, auditors, committees, and other officers heretofore chosen and pass any vote relating thereto.

Given under our hands and seal this twentieth day of February A. D. 1912.

Report of the Trustees of the New Boston Cemetery

February 20, 1911 to February 20, 1912

We submit herewith the report of the Superintendent showing the interments. Also the report of our Treasurer. It is with deep gratitude we acknowledge the comparatively small number taken from us as a town the past year and it is worthy of note that most of these gathered to the cemetery had experienced the "three score years and ten," in life's journey with us. We commend our Superintendent for his care of the grounds and interest in all that pertains to them. The Trustees have had so much work done on the west and south west portions of the new addition to the cemetery in removing stones and smoothing up the unoccupied portions, you will see by Treasurers report that we have exceeded the interest accruing on our general fund so we had to reduce that fund a little, and for further improvements we see are desirable we shall probably do the same the coming year unless more lots than usual are sold but after this work is done shall expect our general fund to increase. Repairs of the walls and gateways will be made, and more work on the road-ways beside grading will call for this expenditure. We very much desire that the lots be put on a uniform grade and especially on the west of the old cemetery where the slant is pretty sharp a general remark-

ing of those lots to make uniformity is very desirable and in all portions of the cemetery. Persons grading their lots will bear in mind the general contour of ground to grade so the lots will be uniform. The growing principle of such grading and the erection of suitable monuments and co-operation with the trustees for a nice looking cemetery we greatly appreciate.

Respectfully,

WILLIAM O. DODGE
THOMAS E. COCHRAN

Report of School Board

*To the Selectmen of New Boston, N. H. and to the Voters
of the School District.*

The following report of the School Board of the town of New Boston, N. H., for the fiscal year ending February 15th., 1912 is respectfully submitted. We would ask that this report be read carefully in it's entirety and that careful note be made of the financial and statistical sections. We respectfully call to your attention the small attendance in many of the district schools and the great number of absences from the schools during the individual terms. We would ask you to further note the statement of the condition of the different school buildings both with reference to needy repairs and to the necessity of protection from vandalism in the form of breaking into the unoccupied buildings and the destruction of the property which you have paid for. We would urge you to discuss and adopt some plan whereby this may be remedied.

Education is not only a necessity but also a privilege. One of the things that has made America what she is today is the Public School System. The dissemination of knowledge is a sure means of making progress in the world's work; the lack of it, a step in retrogression. The individual says, "I want my boy (or girl) to get all the education he is able; I want him to do better than I have done,"—yet the spirit or tendency of the people at large, the feeling that is unwritten and unspoken, seems to be

that of indifference to the matter of education. We are told in mid-Winter that we do not have weeks enough of schooling; at the beginning of Summer we are told that we are keeping the schools open too long, as the boys are needed to help on the farms. We have asked greater cooperation of the parents of the school children, we have requested visits to the schools by the parents, brothers and sisters,—yet few are the visits recorded. We are told that great interest and cooperation is shown and, as one man stated it, “We give you all the *money* you ask for, we work and earn it, and that is pretty good cooperation.” Gentlemen of the Board of Selectmen and Voters of the District, we appreciate your ever-present willingness to expend your *money* on the schools, but something else is necessary—a little of your *time*. If any one of us, whether his business be that of farming or in the mercantile line, makes the purchase of something to help his business, does he not follow it up with with an oversight and with a care to see that it gives him the greatest return for his money? To those of us who are employers, does it not promote the welfare of the work to visit the employees and give a suggestion here and a word of encouragement there; to those of us who are employees, does it not spur us on to receive a visit from our employer and feel that he takes an interest in our work?

Just so with the school children, they need the *encouragement* of your visits to the schools; the teachers need your visits to spur them on to their best endeavors: the School Board urges your visiting the schools to create a lively interest in the school work and make a good

healthy atmosphere in the Town of New Boston in it's educational work. In so far as this is followed out will you have better schools and better feeling among the scholars. New Boston is full of children above the average in brightness of intellect—why not make the most of it?

SCHOOL YEAR : At the last meeting of the District it was suggested to have the High School in session for thirty-six (36) weeks and the District Schools, the Grammar and Primary Schools in the village to have a session of thirty-two (32) weeks. This suggestion has been complied with in all schools with the exception of School No. 5 which was closed one week early in the Winter Term on account of lack of attendance (there being mumps in the vicinity, the parents refrained from sending their children to the school),—it is proposed to add one week to the Spring Term at this school that the school may have the allotted number of weeks.

HIGH SCHOOL : Good work has been done in the High School under the direction of the principal and his assistant. There is a much better *atmosphere*, and a more hearty cooperation between teachers and scholars is shown. The Board highly approves of the new departure in the matter of graduation, i. e. the proposed visit of the graduating class to Washington, D. C. during the last week of the coming April. Such a trip will broaden the scholars and will always be remembered with pleasure by them in the years to come.

DISTRICT SCHOOLS—GRAMMAR and PRIMARY:

Each of these school has done well. All have good teachers. Progress has been made. There were formerly but two graded schools in the District—the Grammar and Primary Schools in the village. During the Fall Term School No. 13 was graded by the Board and as a graded school has done creditable work. On account of the diversity of ages of the scholars and the small number in attendance in the other district schools it has not seemed advisable to grade them.

SCHOOL PROPERTY: The District owns the following buildings and we will here set forth the condition of each and offer some observations concerning them.

High, Grammar and Primary Building. This building is situated in the village of New Boston and is the main building of our educational center. Certain necessary repairs were made on this building during the last Summer and while it is in serviceable condition, it needs interior attention in the shape of white-washing and painting, new curtains, etc. The outside toilet-room is a disgrace to the District. Although kept locked when school is closed and notwithstanding the endeavors of the Board and the Janitor the sinks closets and walls are beyond expression and wholly unworthy a civilized community. This is a matter where the cooperation of the parents would be a great help. The shed, in the rear of the main building is badly in need of shingling.

Building No. 2. This building is in excellent

condition—No repairs, with the exception of setting a few lights of glass, are needed. It has been kept in fine order by the teacher.

Building No. 3. This building is no longer used as a school house. It is in fairly good condition and in no need of extensive repairs, setting a few lights of glass being all that is needed.

Building No. 4. "Joe English School" as it is known, is in fair condition as to the school-house proper. The *shed* needs shingling and there a few other minor repairs necessary.

Building No. 5 "South Hill School" so called. The school house proper is in excellent condition. The interior needs white-washing and painting. The new shed which was built during the last Summer is well built and most satisfactory.

Building No. 6. Known as "Paper Mill Village School" is in fairly good condition. We would suggest that the roof of the main building be shingled on the North side and that white-washing and painting be done on the inside. This school has rather more scholars than the average of the district schools and the interior facilities are the poorest of any of the school buildings. A complete outfit of new desks is necessary (the old desks being antiquated and many of them broken down and useless.)

Building No. 7. Called "Cochran Hill School" is no longer used as a school house. As a piece of the

District property it needs repairs sufficient to keep it weather proof—shingling and repairs to chimney. (Note. The repair appropriation being exhausted we were unable to shingle it during this year, as was suggested at the last District Meeting.)

Building No. 8. See High School.

Building No. 13. "Todd District" This is in excellent repair. We would suggest white-washing and painting in the school room. In this school we find the toilet room (boys) in poor condition but do not make any recommendation for its betterment until the scholars show that they will take some interest in keeping the place neat and tidy.

Building No. 15. We find this building in good condition but suggest the white-washing and painting of the interior. We beg to call your attention to the following;—During the hunting season, on Saturday, December 2nd. 1911, evidently in the night, this school house was broken into. On Sunday morning, the cleaner of the school having to go there for certain apparatus, found a fire in the stove and the floor littered with cigarette stubs and other evidences of vandalism. We submit, gentlemen, that this is a matter needing the attention of all concerned. The Board have been unable to identify the miscreants. But here is a piece of property worth over \$1,000.00 and it was nothing but good fortune that prevented the loss of the building by fire.

Building No. 16. This building is unused as a school house and is in fairly good condition. The shed is in need of repairs, as noted later in list of damage done by house-breakers. On November 7th, 1911 the Board was notified that this school house had been broken into and on Wednesday, November 8th, 1911 the Board visited the place. Upon inquiry we found that the break was made during August or September 1911, yet we received no notification of the fact until November 7th. We ask you to note the condition in which we found things. Cordwood was thrown all about the school room, black-boards were written upon, brooms, etc. were placed in the stove, books were strewn about the floor, teacher's desk was overturned and damaged (back broken and drawers forced open and broken), window-catches broken. The shed had the side-boarding knocked almost off in front of horse tie-up as though cordwood had been thrown against it. We gathered up the servicable books and removed them to the high school building and nailed up the windows. This building is comparatively new and such evidences of barbarism are to be regretted both from a moral and a financial standpoint. Something should be done to prevent such things.

REPAIRS: We recommend the repairs suggested in an earlier portion of this report. The desks at No. 6; the shingling of School-house No. 7; the shingling of the sheds at No. 8 (High School) and No. 4, are urgent. The interior painting and white-washing of nearly all of the

school houses, new curtains in many of the houses and window catches, etc. and such other minor repairs incident to wear and tear, should be made.

We also suggest that a closet be made in the High School Building for the proper storage of books and supplies.
